Act on Energy has collated this list of installers for your convenience and independently of the Energy Savings Trust. It has been checked that these installers are members of the relevant trade bodies. However the Act on Energy cannot take responsibility for the installer's workmanship or any advice they may give. We have endeavoured to ensure that all installers on this list comply with their terms of engagement with Act on Energy and we have the power to deregister those that don't. Act on Energy will not monitor every individual job, or accept responsibility, or liability for the failings of an individual contractor, and are unable to deal with complaints regarding installation quality or material damage to the home as a result of installation work.
